TABLE I

Summary of the results of the investigation of the effect of the concentration of the solution of the electrolyte on the rate of the reaction of the electrolyte with the metal.

The results are given in the following table, which shows the rate of the reaction of the electrolyte with the metal, expressed in terms of the amount of gas evolved per unit time, for various concentrations of the electrolyte.

RESULTS OF THE INVESTIGATION

| Concentration of the electrolyte (M) | | Rate of the reaction (ml. gas evolved per unit time) | |
